

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?

Does

What behavior have we observed?
What can we imagine them doing?

[See an example](#)

Incident Responder

Monitor and analyze network traffic, system logs, and other data sources to identify potential security incidents

"Our current incident response process is too manual and slow."

"I wish I had more context and data during incident investigations."
